Attorney's Docket No.: I2552-002001 / 06447-002-US-
1

After entry of the instant amendment, the claims under consideration in this application will read as follows.

32. (Amended) A method of suppressing the inhibition of neuronal axon growth, the method comprising delivering ADP-ribosyl transferase C3 directly to a central nervous system (CNS) lesion site in a patient or to a peripheral nervous system (PNS) lesion site in a patient, wherein the ADP-ribosyl transferase C3 is delivered in an amount effective to suppress inhibition of neuronal axon growth.

33. (Twice amended) The method of claim 32, wherein said ADP-ribosyl transferase C3 is selected from the group consisting of ADP-ribosyl transferase derived from *Clostridium botulinum* and a recombinant *Clostridium botulinum* ADP-ribosyl transferase.
